Re your request for responses to Phase 1

Education - halt the trend in Primary/ Secondary education to specialise too early and go back to teaching traditional skills such as crafts and cookery using both traditional and modern approaches. Make instrumental musical education available and affordable to all who are interested in it. Encourage the teaching of local and Scottish history.

Istitutional Infrastructure - support local theatres and organisations - especially outwith the Central Belt. Support financially touring companies in all sectors of the arts - theatre, opera, ballet, trad. music, and touring exhibitions of art, sculpture etc.

Marketing and Promotion - keep ticket prices reasonable - not free -

Encourage local radio stations and the use of modern cheap technology to produce local films and radio programs .

Yours faithfully,
Mrs. Maureen Beaumont
