Subject: Cultural Commission(Scanned)

Thank you for your invitation to contribute views on Scotland's cultural future from a business prospective. As you may know British Energy is the UK's largest electricity generator, and our two Scottish Stations generate over 50% of Scotland's electricity. We are also one of Scotland largest employers.

The company is currently progressing through a very complex restructuring, and is very much focussed at the moment on ensuring a successful refinancing. Whilst time does not permit in providing a more fuller response, British Energy is committed to contributing to Scotland's cultural heritage and its future. Our Burns Night Supper is one of the most talked about events in the Scottish calendar - and I hope that we can continue to play our part in developing Scotland's cultural future.

Please do keep me informed of the progress of the Cultural Commission, and hopefully once the company is on a firmer footing we will be able to contribute more fully.

Best Regards
Carl
